PROFESSIONAL SUMMARY

Junior Frontend Developer and undergraduate student with hands-on experience building responsive web applications using HTML, CSS, JavaScript, React, and TypeScript. Experienced in developing e-commerce applications, task management tools, and image galleries. Familiar with React Router, Context API, LocalStorage, Tailwind CSS, Vite, Git, GitHub, and Vercel. Seeking a remote-friendly frontend internship or junior opportunity to contribute to practical projects and continue growing as a frontend developer.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, TypeScript, React Router, Tailwind CSS, Responsive Web Design

State & Browser APIs: Context API, LocalStorage, file input handling, client-side validation

API Integration: Unsplash API, image search and filtering

Tools & Platforms: Vite, Git, GitHub, Vercel, React Icons

Design: Figma

EDUCATION

Sittwe University, Myanmar — English Major, Undergraduate Student
2019 – Present | Undergraduate studies ongoing

FEATURED PROJECTS

Thwe-Store — React E-commerce Web Application Live Demo | GitHub

React.js · JavaScript · Vite · React Router · Context API · LocalStorage · Vercel

- Built a responsive e-commerce interface with reusable React components.
- Implemented product search, category filtering, sorting, product details, cart, and wishlist.
- Added authentication flows, protected profile routes, profile editing, checkout, order history, and order details.

NovaTech Gadget Store — React E-commerce Web Application Live Demo | GitHub

React.js · JavaScript · HTML5 · CSS3 · Vite · React Icons · Vercel

- Created a responsive gadget storefront with product browsing, categories, search, filtering, product details, cart, and checkout.
- Implemented a Light/Dark theme toggle and responsive layouts for desktop, tablet, and mobile.
- Added Sign In, Sign Up, Contact, and custom 404 Not Found pages.

Image Gallery — React & TypeScript Live Demo | GitHub

React · TypeScript · Tailwind CSS · Vite · Unsplash API

- Built and deployed a responsive image gallery using React and TypeScript.
- Integrated the Unsplash API with image search and filtering.
- Added image uploads, previews, and delete functionality with client-side validation.

React Todo App Live Demo | GitHub

React.js · JavaScript · Vite · Vercel

- Built a task management app using component-based UI and interactive task controls.
- Implemented task creation, editing, deletion, and completion.

ADDITIONAL PROJECTS & LANGUAGE

Additional Projects: Movie App · Weather App · Food Filter Project **English:** B1
